Automation & Robotics

Intelligent Automation and Robotics help human centric organisations work more efficiently by:

Minimising manual or repetitive work by deflecting interactions.

Focusing time to strategic and innovative activities

Reduces average handling time on any task

Adjusts to maintain optimal task execution to avoids "starting over"

The first rule of any technology used in a business is that automation applied to an efficient operation will magnify the efficiency. The second is that automation applied to an inefficient operation will magnify the inefficiency."

- Bill Gates

Amazon's cobots have reduced its operating expenses by 20%, and adding them to newly opened warehouses saves as much as \$22 million in fulfillment costs each time

How we are supporting clients

HEALTH/RESTURANT ROBOTS

Physical high efficient contactless delivery
Remote facilities cleaning

DATA SCIENCE EXECUTION

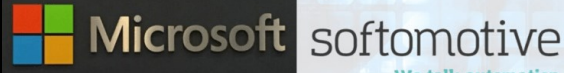

Automate development and deployment of machine learning models for Data COE

TOUCHLESS PROCESSING

Automate manual, repetitive, rules based processes in functional areas O2C,P2P,R2R

AI CHATBOTS & SMART FLOW

Chatbots for case and contact centres

softomotive
We talk automation

Powering automation to create powerful workflows that help businesses to run smoothly, at speed and scale.

All the automation technology you need.

Microsoft Power Automate integrates with over 260 applications ranging from SharePoint to Twitter and Dropbox, in addition to Microsoft's own business applications.

AI Builder

Mobile enabled

Multiple Integrations

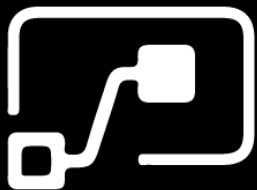

Custom connectors

Flow checker

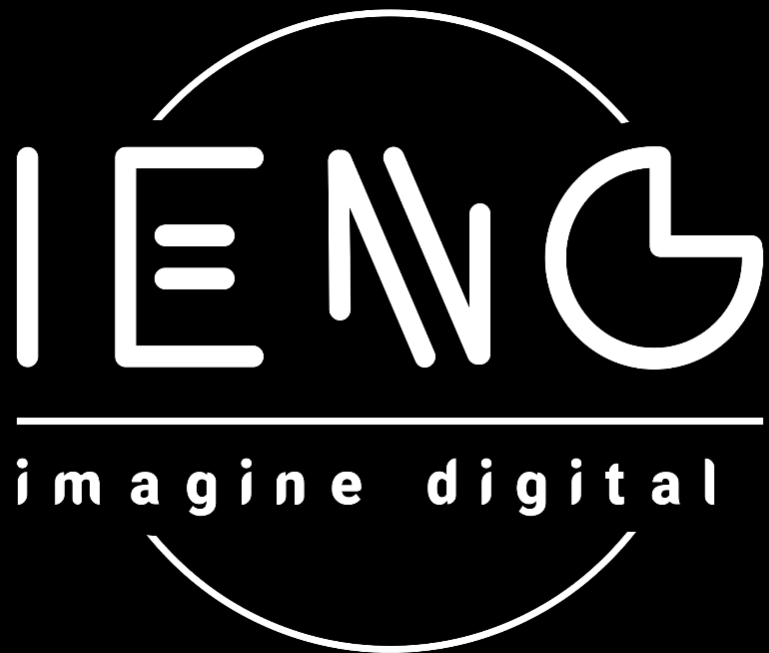

Template driven
